RIC PRODUCT GUIDE

The Product guide is a quick and easy reference tool for general information on the type of business we write. It is *not* a complete list, but it does provide useful information for you.

Information Provided:

- 1) Classes of Business available
- 2) Companies Represented (including Status and AM Best Rate)
- 3) Quoting Method option

All of the classes listed can be written as a package, or monoline property or monoline liability. Since we have the flexibility to customize coverages based on the applicants needs, the quoting method and company listed can be adjusted as needed.

Key – see reverse side

<u>PRODUCT</u> type of business	<u>QUOTING METHOD</u> advisory rates submit for quote	<u>COMPANY</u> Carrier used in quoting method
